

CAR CHARGER (MICRO)

Fulbrook Lane, Sherbourne,
Warwick, CV35 8AR, ENGLAND

Tel: 01926 624800
Fax: 01926 624900

REF: E064-0 19-04-08

INSTALLATION INSTRUCTIONS

The Micro System Car Charger provides a simple and convenient means of charging Lynx Micro System Headsets using the standard Cigar Lighter Socket fitted in all modern vehicles.

The connector is also supplied with an adapter sleeve which may be removed to allow connection to ISO 4165 automotive power sockets.

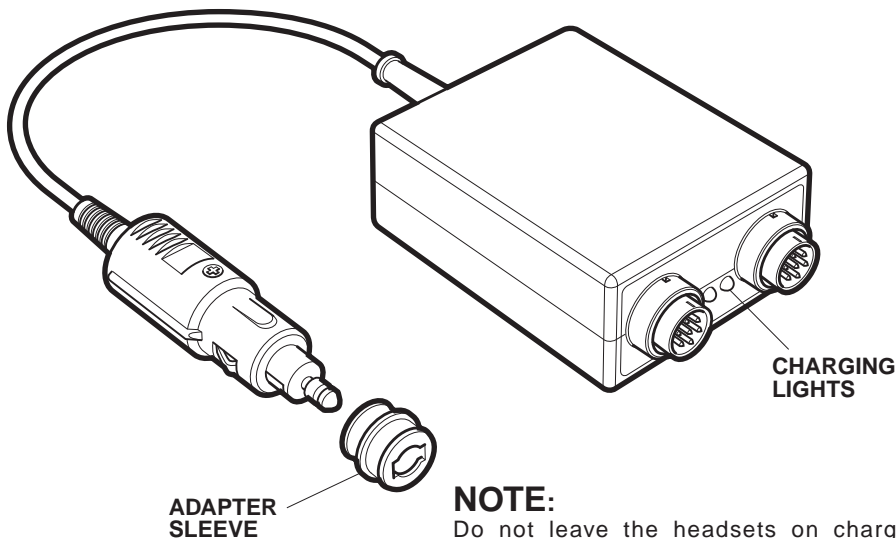

WARNING:

This charger is designed specifically for use with headsets manufactured by Lynx Avionics; do not use with other makes and models of equipment.

Charging lights are provided on the front of the charger which indicate when a headset is connected and charging.

The charging lights only confirm that the charger is working and do not indicate when the headset is fully charged.

NOTE:

Do not leave the headsets on charge continuously for more than five hours, as this may damage the headset batteries.

IMPORTANT

READ THIS INFORMATION CAREFULLY BEFORE ATTEMPTING TO USE THIS ITEM OF EQUIPMENT
